BLUETOOTH TEMPERATURE SENSOR

Wireless temperature sensor is an important tool in cold-chain solutions. Robust design and long-range bluetooth module make **eurosens[®] DTS BT** the best solution for reefer trucks/trailers monitoring.

KEY FEATURES:

- ✓ Long range (up to 200 meters).
- ✓ IP 67 protection class.
- ✓ Smart design allows to mount sensors fast and swap them between trucks.

SPECIFICATION:

Power source element	1xER14505
Battery operation time	5 years
Temperature measurement range	-40 to +85 °C -55 to +125 °C (Ext. version)
Measurement accuracy	±1°C ±0.5°C (Ext. version)
Operating ambient temperature range	-40 to +85 °C
Dimensions	80x100x30 mm
